Cover design by Sean St. Jean

GRADUATION SPEECH by: JOHN SARSFIELD

A few days ago, I was asked to say a few words about the grad class of 1995. I protested that this was rather short notice, and was informed that the original speaker was not able to speak to this august gathering, so I somewhat reluctantly said I would, and, in fact, I am grateful to the grads and Glenn Dickens for the opportunity to speak to you for a few minutes about the class.

I had a decision to make: I would mention each graduate, or I would mention none, and say a few general words about the class as a whole. The safest course was to be general, but I simply could not resist the opportunity to have a gentle go at each of the Grads!

First of all, I thought that we had some wonderful fashion statements this year, Eric and Cory vied to see who could wear their pants the lowest on their hips. I don't know - maybe they wanted to make their legs look as short as Pete Beeney and Mike Moore. We have to call the contest a draw since neither of them lost their drawers. That Copeman's really is a great fashion place though, isn't it? I mean what about Danny's great hair colour? Nobody had better hair than that except maybe Bapty! Copeman's didn't have all the fashion plates, though. Look at Bryce "leatherman" Milliken!

Some old tunes returned to the Shawnigan hit parade this year. Saralyn was crooning "I only have eyes for you" to a certain grade 11 student, and speaking of eyes, Ingrid, Colleen, and Andrea, the Bobsey Twins + 1, had smoke getting in theirs in Ingrid's room - just when Ms. Bridge walked in - good move!

Some of the class made some pretty interesting academic decisions: Joanna and Tori decided it was better to play rugby than write AP English and they may have been right. And Drew actually is writing some exams instead of going fishing, like last year! Christina really knows how to study too, especially looking through the windows at Lonsdale's.

Some of our couples were pretty interesting. Susan and Craig remained a couple; didn't these two do a lot of 'rounds' together? Now that I remember, Craig won the Biology prize last year - maybe they used the

rounds for studying! Jamie got himself a girl friend this year, and that's the long and short of that! And when co-ed rugby comes along, Trevor and Tori will be right in there. Of course, unless that happens in the next year or two, Trevor won't be able to play: they don't let old age pensioners play rugby. Do you guys ever wonder what Jason and Eliza actually talk about?

I have to give all you couples or potential couples a word of advice. At your tender ages, you may wonder what old couples are like forty or fifty years on. Hey - just look at Eric and Andrea!

Sports were pretty interesting, too. The Lee guys shone on the basketball court, along with cool hand Luke, and Ada was the Mugsie Bouges of the senior girls' team. Ciarra and Colleen co-captained the senior girls to the Island championships in volleyball, probably because Ciarra, being the witch she is, put a hex on the other teams. Didn't Brendan also do a performance where he played the devil? Maybe Brendan is the person Ciarra referred to as "My Lord" in her monologue. Kenny worked hard to be like his hero - #23, no, #45, no, #23 - hey, is there a way Jordon can scam even more money? How about Ollie's swimming ability? Everyone rushed to save him - but then they remembered his laugh..ah, ok, we'll pull him out. And then there's that golf shark Feizal - this guy had an eagle 2 - there was great elation - he'd turned his game around - until the next time he played the same hole---9!

Some of the things I noticed were these:

Lisa didn't need her paper bag nearly as much.

Julian finally spoke loudly enough for me to hear him in class.

Cam mysteriously disappeared from the rugby pitch.

Tara finally lost a battle - to me - maybe!

'Becca learned to spell her name the right way.

Erica and Jeff both got to act their age this year - about seven.

Doyoon's religion must be practising Kung-fu moves - I mean, why else would he never be in chapel?

I've got some predictions for you: Bryan will run a courier service when he leaves Shawnigan.

Stacey will be Governor of Alaska.

Doug will drive his car better than his

boat.

Jenny will play University basketball and win the three-point shooting award.

Simon will give up tennis and take up rugby or maybe rowing.

Justin will become the next Annie Liebowitz and his favourite model will be Erin.

Tamara, Liv and Amber will become the meanest, toughest guys in the valley, having learned their street fighting tactics in the dangerous halls of Groves house. You think I'm kidding? That cat-burglar and lock picker extrordinaire, Tamara, led a band of Grovites out to get their Christmas presents back and they outsmarted all of Copeman's; but, maybe that's not saying much.

Mark's smile won't be enough to get him everywhere he wants to go except maybe with Aimee - but then she's got a pretty great smile herself, so it works both ways.

While we may not have a singing detective at the school, maybe Aaron will be our first singing computer junkie?

Sean will own a MacDonalds' franchise, and red meat eater Mike Rimell will be his best customer.

Janice will become a recreational tennis instructor, or, failing that, start a line of designer bibs.

And Dave Robinson will finally get a mark on a test or assignment he doesn't argue about.

I am also going to tell you tonight about some awards that I hear Shawnigan is giving out.

The I-think-about-others-first-award goes to Mike Yates.

The English Literature class pronunciation award goes to Kim, and the school wide enunciation award for 1995 goes to Bryce Bendickson.

The robbing-the-cradle award for 1995 goes to Scott. The runner up is Christina.

The Viet Nam War and security avoidance medals go to Sarah, Alicia, and Heather for their superb knowledge of Shawnigan ditches after hours.

Kerstin gets the-most-boyfriends-in-Duncan award, and Tony Redekopp, this year's charismatic leadership award.

There were some other interesting happenings.

Andy's theory that playing fooz ball increases academic ability, seems to have worked, and Graham's academic

success does prove the theory to be true.

However, David Gordon-Smith's theory that bungy jumping with your mother will improve your calculus mark has very sadly proven false. Ken Chang found himself in a very stressful situation most of the year, trying to decide whether to eat pizza or make a phone call, and what about Vivian-uh-Vincent. Does that guy ever sleep?

It seems that some people actually regress at Shawnigan. Having missed out on having fun in his junior years. Damien decided now was the time to have shaving cream wars with the juniors.

Caius was so busy with his ham radio, he hardly had time all year for ham at breakfast.

Piers became not just a Klingon speaker, but a muscular Klingon speaker; in fact I believe that Piers is actually a Klingon. It seems they have a different constitution than we do. They get a high from smoking seaweed!

Well, you've heard a bit about this stellar graduating class and I've covered everybody I think... Oh no! I nearly forgot...Gemma... Pleassse GRADUATE!

Ladies and gentlemen, I know the graduates will forgive me for poking a bit of fun at them... In actual fact, we love them all and they are a fine group of young people. Please, if you would, charge your glasses and join me in a toast to the Shawnigan Lake School graduating class of 1995!

## CLOSING DAY SPEECH

Dear members of the Board of Governors, staff, guests, and of course the graduating class of 1995, welcome to this year's graduation service.

Talking with a staff member, who shall remain anonymous, about the art of speechwriting, she mentioned that the audience enjoys a speech that portrays the characteristics of the speaker. So, bearing that in mind, I will try to keep this short.

This year, which at times seemed frozen in stillness, has finally come to a close and we find ourselves wishing maybe it had not gone so fast. As a class, we have been together for two years now. For some of you, it has been a much longer ride and you have seen many others come and go along the way. We are the survivors and like all survivors, we have learned a thing or two about life. Today, we reach the summit that has been twelve years in the climbing and, although it was a steep climb, we have made it and triumphantly look forward to the next. It is difficult to adequately sum up the range of emotions that are going through us now. Everyone, staff and students, is looking forward to a well-deserved summer. For many of us, it will be the last time we leave Shawnigan's gates as students. Our times here, the good and the bad, I'm sure are all racing through us, leaving us with feelings of nostalgia and perhaps even a few tears.

I did not want to stand up here today and give the traditional speech about our Grad class's unbelievable unity. To say this would be hyperbole. Many of us this year have heard the odd person refer to us as "that Grad class". Unfortunately, those are the people who have been missing the forest for the trees. They have failed to see that we are unique and special in our own way. I look before me and I see the 75 faces of our graduating class and in that I find the greatest hope and comfort in the world. All of us possess the spirit of the eagle; the eagle which like a great leader is always seen soaring high and alone. We are perhaps not the closest Grad class to venture out of Shawnigan's gates; however, we have something already inside us more useful than any bond could ever give us. This is our individuality. We are not afraid to stand for who we are or what we believe and I dare say, though we may be nervous about tomorrow, we shall be unafraid to meet it. I hope everyone will find atonement in this too, as we are the leaders of tomorrow, and today we are confident enough to take on that responsibility.

This is not to say we do not know the meaning of unity. On the contrary, we have made friends that will never be forgotten and done things together that will always be remembered. Our only REAL Grad sneak-out is one such memory that we share as does the security man, Mr. Robertson, the rest of the school and anyone else whom we managed to wake at 1:00 in the morning! In hindsight, our feeling of unity that night was perhaps worth the Scottish gentleman's fury the next day! There was another night on a young lady's farm when we again were able to leave behind the hustle and bustle of Shawnigan and melt into the surroundings of sweet country air, laughter, cheerfulness and Molson's Canadian. And for almost all of us here today, family, friends and staff, we have the magical memory of Grad night, where we all joined again for one fabulous night of reminiscences, friends and dance. These times and the million other priceless ones that, as friends, we have shared, make leaving difficult. It is always the good times that we will look back on and when we do meet again, it will be to add another page to our memories of Shawnigan.

We are a class full of extraordinary talent and the determination to go with that talent. Our years at Shawnigan have helped to mold us into who we are and we should thank the staff who have laughed, lived and cried with us. What we have learned from you, the staff, goes far beyond any student-teacher relationship. You have been our friends, parents and confidants when we needed help most. Your caring support in and out of class, has equipped us with the tools that I wish so many other students our age could have.

To our parents, we owe you more than can be expressed. Thankyou for giving us the roots from which we will grow. To each other, where does the thanking end? Our room-mates and friends with whom we have shared and grown, deserve the greatest thanks of all. Life at Shawnigan is not always easy and none of us could have made it on those lonely nights without that silent friend's gentle pat on the shoulder. If I have a parting word to say, it's only that I hope you are always true to yourself, never settling for anything less than you deserve and always setting your goals higher than the next person's. May we go forward and accomplish our dreams. Thankyou.

Kimberley Mitchell — Head of School

A great many people have come and gone over five years, and they are what I'll remember the most about this place. I've come to respect and admire a lot of people here, and they will be one of the few things I miss at Shawnigan.

## CAIUS ST. GEORGE

**MEMORIES:** Having only been here for two years, I don't have many memories, but those that I do have are short and sweet/sour: rooming with Drew (for about one week); Tara in drafting (compasses aren't good killing instruments); the raids on Kaye's, the long nights in my room; my third roommate; learning about Star Wars and the speeches Brendan; being cultured (hockey is a great sport); Mr. Doris (Timmer) in pink spandex and Rhoooodri strollin' down the corridor. The snow-caving trip (see SAR page) and all other SAR weekends. The last year of the field hockey program. I guess it's not all that inspiring to know that it doesn't look any better from this end, but at least there's "The Force".

**Parting Words:** Shawnigan has not done any miraculous, awe-inspiring things for me (other than letting me know that I have a resemblance to Rowan Atkinson (Mr. Bean), but then again, beauty is in the eye of the beholder. Thanks to Copeman's house and their pursuit of Lebensraum, don't give up your putsch. I'll never forget the studying, the naps and all the baths. I thank Andrea for her friendship and showing me love is possible, I never thought I really could. Special thanks to my guitar for keeping me sane. Good luck in Mexico, Col., and good luck with your journalism. Andy good luck with your life, I wish you all the best, you made this place seem O.K., and I want you to be happy.
